

Parts of a Volcano Puzzle

Designed by: Martha Moseman

Key Concepts: Environment, Geography

Grades: 3 - 6

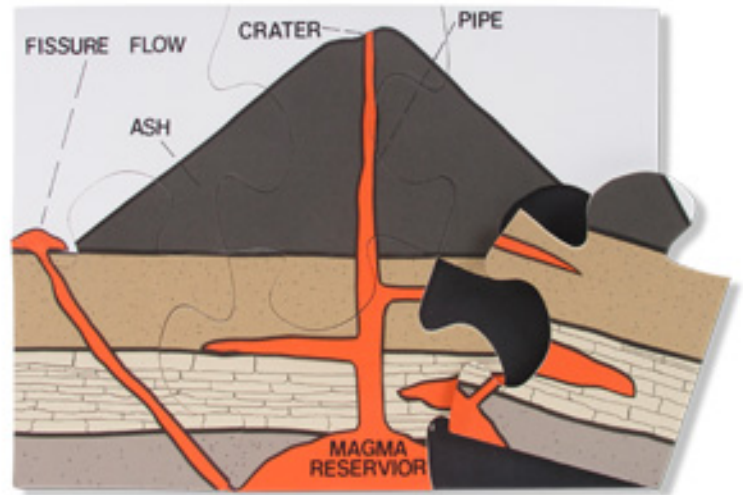

Description:

How do you keep kids interested in science lessons? Try "puzzling" them by cutting their lessons, such as this volcano cross-section illustration, into puzzles!

Curriculum: Science

Machines:

[MARK IV](#)
[Roller Die Cutting Machine](#)

Tips:

Display this unusual volcano project for elementary and middle school science...or share it at this year's science show!

Instructions:

Sorry no instructions are available. Use this as inspiration!
