

### Step 1

Print out the pages. If you have a color printer, print out the color version. If you have a black and white printer, print out the blank version and color it in however you like.

### Step 2

Glue or paste each sheet to a piece of construction paper.

### Step 3

Cut out each piece along the solid outlines. Write the piece's letter on its back.

### Assembly

1. Fold pieces B and C back at the dotted line.
2. Fold pieces G and H forward at the dotted line.
3. Fold piece D forward at the dotted line.

### Assembly

4. Apply glue to the folded area on piece B.
  - Glue it to the back of piece A. Positioning it so the word "top" is at the top.
  - The lines on piece B should follow the same curve as the lines on piece A.

5. Do the same for C, gluing it to the other side of piece A.

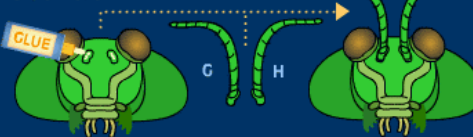

### Assembly

6. Apply glue to piece D on the area marked "Glue here."
  - Glue piece D to the back of piece A so the jagged edges of piece D poke outward.

### Assembly

7. Apply glue to the two spots on piece A marked "Glue here"

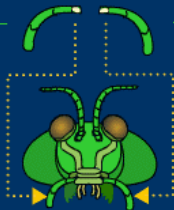

8. Glue piece G to the right spot, piece H to the left spot, matching the shapes of their round ends to the shapes on piece A.

### Assembly

9. Apply glue to pieces E and F in spaces marked "Glue here." Do not apply glue outside the marked area.

10. Glue piece E to the left lower portion of piece A, just above piece D. Piece E should jut out between piece B and D.
11. Do the same for piece F on the right. When you have glued it in place piece F should jut out between piece C and piece D.

### Assembly

12. Place the mask against your face to determine your eye position.
  - Remove the mask from your face and use a scissors to poke a small hole for each of your eyes.

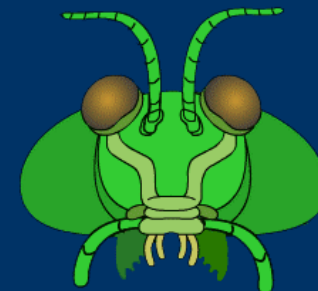

### Assembly

13. Use a hole punch to make a hole in pieces B and C.
  - Run a piece of string through each hole and tie it to fasten.
  - Tie the two ends behind your head to wear the mask.
  - Adjust the string for a comfortable fit.

Congratulations You're Done!
